

# Candidate McMaster

To the editor:

With election day only a few weeks away I would like to introduce myself to those in the community who don't know me.

I'm 28, and a laborer, working in Pot Keline of the Potline Department at the Anaconda Company, aluminum division.

My wife, Rae, son, Kevin, and I reside in Columbia Falls at 1120 11th St. West.

I have lived in Columbia Falls for 22 years and am a 1966 graduate of Columbia Falls High School. I graduated from the University of Montana in 1970 with a Bachelor of Arts degree in education and have one year of graduate school in education with emphasis on computer science.

I have been president of the

Columbia Falls Pee Wee Baseball Association for the last three years. I'm also past-commandore of the Montana Boat Racing Association and member of the Board of Directors Region 17 of the American Power Boat Association.

I am running for the office of mayor to give the citizens a choice on the ballot since no one was opposing Mrs. Allison. My original intent was to seek the Ward 3 alderman position.

The basic responsibility of a city is to provide the taxpayers with the best services possible within the budget of its tax base. Changes are needed to improve the present status of our services, i.e. sewer, water, street maintenance, etc.

If changes are in order, then April 5th is your chance to express the peoples' choice. VOTE! My campaign promise — Make an honest effort to organize and give city government back to the people and bring to the office of mayor an open and educated mind, young new ideas, and common sense.

Frank McMaster

Columbia Falls

## Like Britain

To the editor:

If we continue at the present rate with more government and more government spending, we will go down the drain like the British have.

Everything is being done for them by their government. It is far easier to not work and live in England, than to work. A lot of people here are finding that is a way of life in the U.S.A. too!

A few years ago one could work and raise a family. Now everyone in the family has to work to make it. Even the biggies are finding it tough, look at our poor Congress-people!

It is time, past time, to pay attention to Nobel prize winner, economist, Professor Milton Friedman!

A. R. Carnes, Jr.

Kalispell

## Unhappy With Jonkel Story

To the editor:

Remarks made by Dr. Charles Jonkel during this past year and recently at the Bear Conference in Kalispell, if reported correctly in the papers, have given an overall unfavorable impression of the North Forkers.

To characterize many of us as deliberate law-breakers in any regard is to add insult to injury.

Last year, a known rogue grizzly was foisted upon us by a decision in which we had no part. All of us were expected to
